

SRIKANTH CHITTABATTINA

Experience Summary

- **Having 9+ years of experience in Dotnet Full Stack Developer (Frontend application, Backend application, application hosting along with client interactions) in projects.**
- Strong experience on Angular 9+, Dotnet Core 3.1+, SQL Server, AZURE & AWS Cloud.
- Involved in Analyzing and Understanding end-to-end functional requirements based on the customer needs.
- Experience in writing **SQL queries, joins, Indexes, views, stored procedures, functions, trigger and stored procedures optimizations.**
- Experience in Azure Boards, GIT, JIRA and Confluence Pages.
- Implemented **SOLID principles** rules for solving the real-time object-oriented programming problems in DotNet Applications.
- Implemented **lazy loading configuration** in angular large-scale applications for performance improvement.
- Strong experience in Agile methodology & Waterfall model.
- Having Experience on **Design Patterns: Mediator With CQRS, Aggregator, Repository, unit of work, Singleton Pattern and Dependency Injection.**
- Having Experience on **Microservices Architecture | Micro Front end Architecture | Mono Lithic Architecture | Mono Repo Architectures.**
- **Used AZURE (App services, Azure DevOps, Azure blob storage, application insights, Functions, key vault, Functions).**
- **Used AWS (S3 Bucket, Cloud watch, Simple Queue Services, Secrets Manager, Elastic Container Service, Lambda)**
- Completed Azure-900 certification.
- Worked on different **ORMS (Ado.net, Entity Framework Core and Dapper).**
- Involved in **payment gateway (Bill desk and UPI Razor Pay) integration.**
- **Fixed production issues and monitor the site performance along with development.**
- Worked on **Task Schedulers, SQL Server Agent Jobs** for sending data from one database to third party client database.
- **Involved in Performance Tuning on Entire Project (Front End, Api Services, SQL Server)**
- Involved in sprint meetings & code reviews.

Skills Summary

Domain	Real Estate, HealthCare, Mutual Funds, Tax and Accounting.
Design Patterns	Mediator With CQRS, Aggregator, Repository, unitofwork, Singleton Pattern and Dependency Injection.
Architectures	Microservices Architecture Micro Frontend Architecture Monolithic Architecture Mono Repo Architectures.
ORMS	Ado.net, Entity Framework Core (CodeFirst&DbFirst) Approach and Dapper.
CLOUD	AZURE, AWS.

Professional Certifications/ Trainings

1. Completed Azure-900 certification.

Experience Summary

- LTIMindtree Experience: 2.6 years(s)
- CGI Experience :2.7 years
- Karvy Computershare pvt limited Experience:2.5 years
- Digital Minds software solutions Experience:1.2 years.
- Crown solutions India private limited:6 months

Address	HYDERABAD.TELANGANA

Work Experience

Project 1

Project Name	EY_GEMPLUS	Team Size	8
Company	LTIMindtree Ltd	Designation	Senior Specialist
Start Date	July- 2024	End Date	Nov-2024
Project Description	GEM+ is a solution that will improve our ability to develop competitive pursuits and deliver engagements more effectively to achieve our business objectives. The SQ Program aims to drive service delivery excellence to improve engagement performance and client satisfaction. The SQ Program operates across the engagement lifecycle.		
Role & Contribution	- Requirement analysis. - Creating webapi's and call it from front end. - Involved in creation of stored procedures. - Responsible for deployment of web application to Test and QA environments. - Checking the response data with Rest Client (Postman). - Involved in architectural design of both front-end and back-end applications. - Involved in Sprint reviews &PI Plannings. - Involved in writing Unit test cases with XUnit. - Used Code quality tools like SonarQube and Vera code. Fixed Sonar Cube Issues.		
Technology &Tools	REACT, NETCORE8.0, ADO.NET, XUNIT, SQLSERVER, AZURE, MEDIATR WITH CQRS PATTERN		

Project 2

Project Name	DELOITTE_GA_OCR	Team Size	8
Company	LTIMindtree Ltd	Designation	Senior Specialist
Start Date	September- 2023	End Date	June-2024
Project Description	OCR Stands for optical character recognition.in this project we used azure AI artificial intelligence. Main usage of this project is transforming the pdf or images to one language to another language and translate the text from one language to another language.		
Role & Contribution	- Requirement analysis. - Creating webapi's and call it from front end. - Involved in creation of stored procedures. - Responsible for deployment of web application to Test and QA environments. - Checking the response data with Rest Client (Postman). - Involved in architectural design of both front-end and back-end applications. - Involved in Sprint reviews &PI Plannings. - Involved in writing Unit test cases with NUnit. - Used Code quality tools like SonarQube and Vera code. Fixed Sonar Cube Issues.		
Technology &Tools	ANGULAR 13, NETCORE6.0, DAPPER, NUNIT, SQLSERVER, AZURE, AWS		

Project 3

Project Name	HH-TNM-WK_CT_Engage	Team Size	5
Company	LTIMindtree Ltd	Designation	Senior Specialist
Start Date	April-2022	End Date	September- 2023
Project Description	CT Engage is a part of the Legal and Regulatory Domain CT mainly deals with Corporations or Entities and their Legal / Regulatory Domain. CT helps these entities directly or indirectly to do legal and regulatory obligations needed for an entity to do their business legally, to comply with all the rules and regulations of state and federal governments by collecting information from these entities and do these works on their behalf. These needs to be done periodically and any change in laws and regulations needs to be kept in sync with the latest changes. CT Digital Transformation – As part of CTDT Engage is the customer facing application which we are developing that these entities can use. This new platform will help customers to have a single place for them to fulfil all their needs for interaction with CT by providing a single place where they can provide all their inputs, interact with CT agents, view their own information, keep track of the legal and regulatory processes, and update their status.		
Role & Contribution	- Requirement analysis. - Creating webapi's and call it from front end. - Involved in creation of stored procedures. - Responsible for deployment of web application to Test and QA environments. - Checking the response data with Rest Client (Postman). - Involved in architectural design of both front-end and back-end applications. - Involved in Sprint reviews &PI Plannings. - Involved in writing Unit test cases with XUnit. - Used Code quality tools like SonarQube and Vera code. Fixed Sonar Cube Issues.		
Technology &Tools	ANGULAR 13, NETCORE6.0, DAPPER, XUNIT, SQLSERVER, AZURE		

Project 4

Project Name	Provider Work Bench (PWB)	Team Size	7
Company	LTIMindtree Ltd	Designation	Senior Specialist
Start Date	Sep 2019	End Date	April 2022
Project Description	Provider Work Bench is used to maintain provider information. This application is to load provider and association contracts. It is useful to have only one accurate and complete record for each practitioner, Association, Ancillary and Facility.		
Technology & Tools	ANGULAR 9, NETCORE3.1, DAPPER, XUNIT, SQLSERVER, AZURE		

Other Experience

Project Name	Instant Redemption & KarvyMfs & Kloc	Team Size	11
Company	KARVY COMPUTER SHARE PRIVATE LIMITED	Role	Software Developer
Start Date	March 2017	End Date	September 2019

Project Name	BurbankSupplyPortals	Team Size	10
Company	DIGITAL MINDS SOFTWARE SOLUTIONS	Role	Software Developer
Start Date	JAN2016	End Date	MARCH 2017

Project Name	Automated Survey	Team Size	6
Company	Crown Solutions India private limited	Role	Business Associate
Start Date	July 2015	End Date	December 2015
